Report No. SAT-00107

Friday April 5, 2002

SATELLITE POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-AMD-20020315-00039 S2389 INTELSAT LLC
Amendment

Intelsat LLC has filed an amendment to its pending application for modification of its INTELSAT 602 satellite. See File No. SAT-MOD-20011221-00141. In its modification, Intelsat requested authority to operate INTELSAT 602 at 64.0° E.L. In the amendment, Intelsat requests the flexibility to operate this satellite within the orbital location at 64.25° E.L. rather than precisely at 64.0° E.L. In addition, Intelsat included revised technical information.

SAT-LOA-20020329-00042 S2439 EchoStar Satellite Corporation
Launch and Operating Authority

EchoStar Satellite Corporation has filed an application to construct, launch and operate a new Direct Broadcast Satellite, EchoStar VIII, at 110° W.L. EchoStar proposes to colocate the EchoStar VIII satellite with EchoStar V at 110° W.L. The EchoStar VIII satellite location is equipped with spot beams and would provide limited spectrum reuse and additional localized programming capacity at that location. Specifically, EchoStar VIII would deliver 40 DBS-equivalent channels using 20 of the 29 channels EchoStar is authorized to use at the 110° W.L. location.

Concurrently, EchoStar has filed a request for modification to add this satellite to the facilities authorized to operate at 110° W.L. See File No. SAT-MOD-20020329-00041.

SAT-MOD-20020315-00037 S2409 INTELSAT LLC
Modification

Intelsat LLC has filed an application for modification of its INTELSAT 905 satellite (See File No. SAT-LOA-20000119-00023; Call Sign S2309). Intelsat requests authority to permit deployment of its INTELSAT 905 satellite at 24.5° W.L. rather than at 27.5° W.L. in August 2002

SAT-MOD-20020315-00038 S2410 INTELSAT LLC
Modification

Intelsat LLC has filed an application for modification of its INTELSAT 906 satellite (See File No. SAT-LOA-20000119-00024; Call Sign S2310). Intelsat requests authority to permit deployment of its INTELSAT 906 satellite at 27.5° W.L. rather than at 18.0° W.L. in November 2002

SAT-MOD-20020329-00041 DBS8802 EchoStar Satellite Corporation

Modification

EchoStar Satellite Corporation has filed an application for modification of its authorization to operate 29 Direct Broadcast Satellite Channels at 110° W.L. Specifically, EchoStar seeks authority to operate a new EchoStar VIII satellite at that location. (See File No. SAT-LOA-20020329-00042; Call Sign S2439)

SAT-WAV-20020322-00031 PanAmSat Licensee Corp.

Waiver

PanAmSat Licensee Corporation has filed a request for Waiver of Section 25.210(e) of the Commission's rules so that it may use circular polarization for certain Ku-band transponders on its Galaxy VIII(I)-R satellite.

NOTE: Comments on this Waiver request may be filed on or before APRIL 18, 2002. Replies may be filed on or before APRIL 25, 2002.

For more information concerning this Notice, contact the Satellite and Radiocommunication Division at 202-418-0719; TTY 202-418-2555.
